Health Programme actions in blood

Health

EU4Health

This section outlines the objectives and priorities of EU4Health. It features the European Commission logo at the top center and a 'Health' label at the bottom center. The 'Objectives' are listed as bullet points, emphasizing the protection of people from cross-border threats, increasing the availability of medicines and medical devices, and strengthening health systems through digital transformation and coordinated work among Member States. Below the objectives, it mentions ongoing and future priorities in health, such as the Pharma Strategy and Cancer action plan, and notes that negotiations are ongoing regarding the budget and timeline.

Objectives

- Protect people in the Union from serious **cross-border threats** to health
- Increase **availability** in the Union of medicines, medical devices and other crisis relevant products, contribute to their affordability, and support innovation
- **Strengthen health systems** and the healthcare workforce, including by digital transformation and by increased integrated and coordinated work among the Member States, sustained implementation of best practice and data sharing, to increase the general level of public health.

Ongoing and future priorities in the area of health (*the Pharma Strategy, the Cancer action plan, digital transformation*)
